

## ALUMINUM PLATFORMS & WALKWAYS

AscendFab Aluminum bargating platforms and walkways with aluminum perimeter guardrails represent the highest quality designs available. Designed for attachment to structures, buildings, wall surfaces and free-standing designs. ASCEND platforms satisfy or exceed the most stringent code requirements for general commercial, municipal and industrial applications including **OSHA 1910.27** and **ANSI A14.3**.

Platforms are modular construction available in any size or shape.

### The Benefits of High Quality Aluminum Construction:

- ✓ Conservative, heavy duty design parameters providing the highest quality aluminum construction available.
- ✓ All aluminum construction is virtually maintenance free and is easy to install versus other platform products.
- ✓ Never requires painting
- ✓ Modular component design
- ✓ Welded or bolted aluminum pipe handrails designs
- ✓ Stainless steel construction hardware
- ✓ Special engineering, stamped calculations and PE stamps can be provided for any U.S. location at additional cost.
- ✓ Comes with standard mill finish. Anodized or powder coated finishes are also available.
- ✓ Exceeds code analysis (see engineering)
- ✓ Review our (component descriptions)
- ✓ Can be shipped to the jobsite broke-down, crated and wrapped, or assembled in larger sections.
- ✓ Platforms and welded perimeter guardrail designs are custom built to order. Bolted perimeter guardrail assemblies are stocked component items available for prompt shipment.

Radial platform sections designed for cantilevered attachment under construction.
